Care Plan Evaluation – Fundamentals of Nursing

	Exceeds Expectations	Meets Expectations	Needs Improvement	Unacceptable
Assessment Data	You obtain assessment data that is sufficient and appropriate from at least four sources (e.g. client and/or family interview, chart review, social work, PT, and nursing staff report).	You obtain sufficient and appropriate assessment data from at least three sources (e.g. client and/or family interview, chart review, social work, PT and nursing staff report).	You obtain minimal but appropriate assessment data from two sources (e.g. client and/or family interview, chart review, social work, PT and staff report).	You obtain minimal and inappropriate assessment data from two or fewer sources (client and/or family interview, chart review, social work, PT, and staff report).
Problem Identification	You identify three problems that are appropriate and supported by 100% of the assessment data.	You identify three problems that are appropriate and supported by 80% of the assessment data.	You identify three problems that are minimally appropriate and supported by 60% the assessment data.	You identify three problems that are inappropriate and supported by less than 50% of the assessment data.
Prioritization	You appropriately prioritized all three identified problems.	You appropriately prioritized two of the identified problems.	You appropriately prioritized only one of the three identified problems.	You did not appropriately prioritize any of the identified problems.
Nursing Diagnosis	Assessment data strongly supports selection of your nursing diagnosis.	Assessment data moderately supports the selection of this nursing diagnosis.	Assessment data minimally supports the selection of your nursing diagnosis.	Assessment data does not support the selection of your nursing diagnosis.
Goal Statement	Your goal statement is derived directly from the problem statement and if achieved will demonstrate a direct resolution of the problem.	Your goal statement is derived from the problem statement and if achieved will demonstrate a partial, but not complete, resolution of the problem.	Your goal statement is partially derived from the problem statement and if achieved will demonstrate a minimal resolution of the problem.	Your goal statement is minimally derived from the problem statement and will not demonstrate a direct resolution of the problem.
Expected Outcome	Your outcome statement lists a realistic, measurable outcome to be achieved within the stated time frame.	Your outcome statement lists a realistic, measurable outcome but may not be achieved within the stated time frame.	Your outcome statement lists a realistic, but immeasurable outcome that may not be achieved within the stated time frame.	Your outcome statement lists an unrealistic or immeasurable outcome which may not be achievable at any point in time.
Nursing Interventions	All interventions you suggest are appropriate.	75% of the interventions you suggest are appropriate.	Only 50% of the interventions you suggest are appropriate.	Only 25% of the interventions you suggest are appropriate.
